### II. Executive Summary

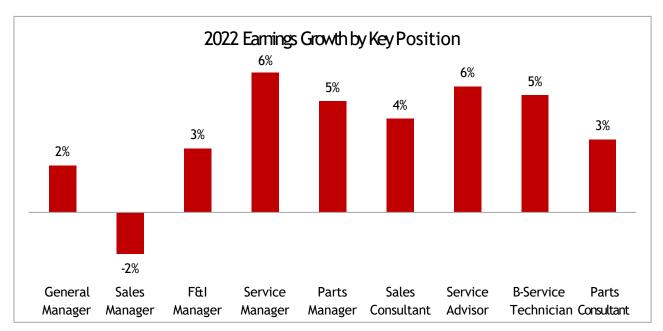

After the unusual economic and market conditions of the last two years, 2022 represented a shift toward normalcy for America's franchised dealership workforce.

- The 2022 average weekly earnings in participating dealerships increased three percent after a 27 percent increase in 2021.
- Similar levels of increase were seen in Same Stores and Same Employee average and median weekly earnings.
- While 2022 earnings growth returned to pre-Pandemic levels, they did not keep pace with the eight percent rate of inflation.
- Weekly earnings in the U.S. Private Sector¹ grew at a slightly faster pace than dealership weekly earnings.
- Dealership median earnings in 2022 were still 38 percent higher than the U.S. private sector median earnings.

| BLS U.S. Private Sector | \$1,063   | \$1,114      | 1     | 5%                     | \$988   | \$1,059 | 1   | <b>7</b> % |

In 2021 the double-digit growth rates in general manager and sales position earnings were driven by higher prices and higher gross profit due to inventory challenges. While inventory of new vehicles increased during 2022 earnings growth cooled in most sales positions.

- The 2021 jump in average weekly earnings in sales and F&I was maintained but additional earnings growth in 2022 was on the lower side of normal.
- 2022 average weekly earnings growth in service and parts positions dropped by several percentage points compared to 2021 but kept pace with 2022 earnings growth in the U.S. non-farm private sector.

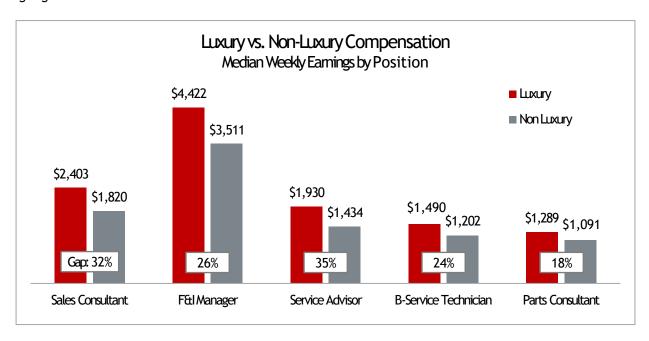

<sup>&</sup>lt;sup>1</sup> U.S. Bureau of Labor Statistics (BLS) 2022 weekly earnings of all non-farm private sector full-time wage and salary workers.

| Data Source        | 2021    | 2022                    | Growth      | 2021                             | 2022    | Growth       |  |
| All DWS Dealership | \$1,330 | \$1,389                 | <b>1</b> 4% | \$1,603                          | \$1,692 | <b>↑</b> 6%  |  |
| DWS Same Stores    | \$1,340 | \$1,399                 | <b>1</b> 4% | \$1,627                          | \$1,717 | <b>↑</b> 5%  |  |
| DWS Same Employees | \$1,386 | \$1,468                 | <b>↑</b> 6% | \$1,754                          | \$1,921 | <b>1</b> 10% |  |

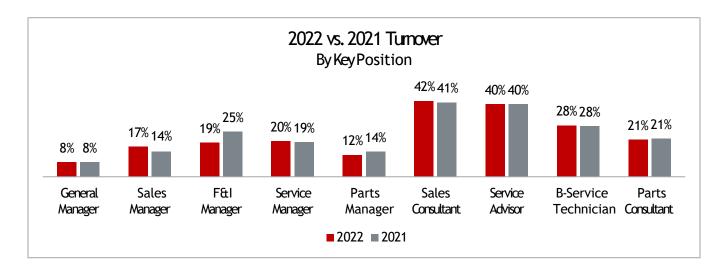

The differences in median weekly earnings between luxury and non-luxury franchised dealerships vary significantly by job title. The gap in weekly earnings is greatest between service advisors and sales consultants.

#### 2022 Total Tumover and Retention

After dropping 12 points to the lowest level seen in over a decade, the 2022 annualized turnover for all positions and titles dropped another point to 33 percent. One-year retention increased one point while three-year retention dropped one point.

| National Retention and Turnover - All Dealerships |                        |                     |                     |                          |  |  |  |  |  |  |

### Pay Plans and Incentives

#### Sales Consultants

Although dealerships are slowly moving away from commission-based pay plans for sales consultants, a significant number of the Study participants are still using 100 percent commission-based pay plans.

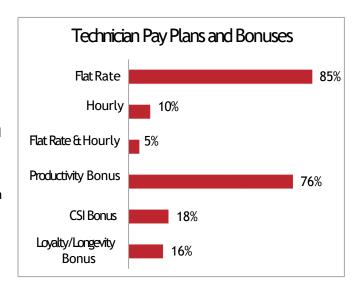

- Seventy-eight percent of the Study participants are using commission-based pay plans.
- Only eight percent of the participants are paying new hires in training 100 percent commission-based pay.
- Twenty-nine percent of the Study participants are using base salary plus commission-based pay plans during training.
- The rest of the Study participants (63 percent) provide a broad range of fixed or guaranteed rates of daily, weekly, or semi-monthly pay.
- The length of guaranteed pay ranges from 30 to 90 days.
- Nearly all the participants include some type of performancebased incentive pay during training.

#### Service Technicians

We asked the Study Participants how they pay their A- and B-Service Technicians. While 85 percent checked off Flat Rate and 10 percent checked off Hourly, another five percent offer both types of pay plans.

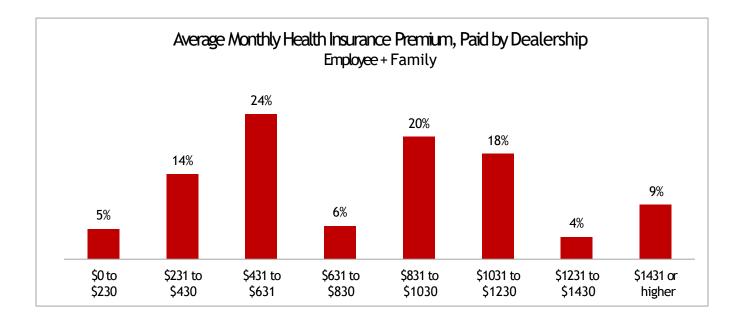

- Seventy-six percent of the pay plans include weekly or monthly productivity or proficiency bonuses.
- Eighteen percent of the participants pay their technicians CSI bonuses.
- Sixteen percent of the participants pay their technicians quarterly or annual loyalty or longevity bonuses as a retention incentive.
- Other types of compensation mentioned include bonuses for team leader, training, mentoring, upselling, parts sales, technician referrals, and profit sharing.

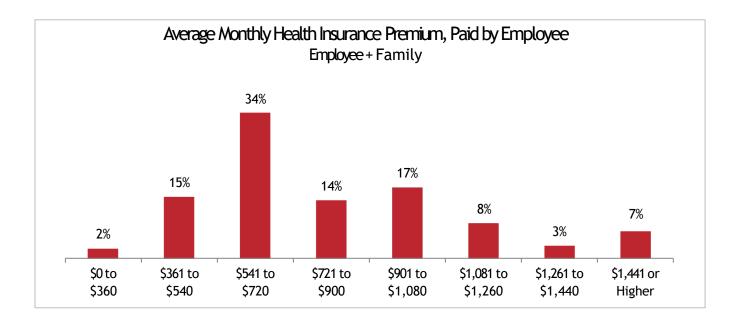

### IV. Employee Benefit Programs

#### Health and Medical Benefits

- One hundred percent of all dealerships now offer Employee + Family health insurance plans.
- In 2022 only 62 percent of benefits-eligible employees were enrolled in a dealership health insurance plan which represents no change since last year.
- The average waiting period for health insurance benefits increased slightly from 45 days in 2021 to 48 days in 2022.
- On average, dealerships are paying 55 to 60 percent of the monthly employee-only health insurance premium and 30 to 35 percent of
  employe + family health insurance premiums.

### Region 1 New England

- The New England region's all-dealership, all-position average compensation of \$110,480 was four percent higher than the national average of \$106,330.
- The region's non-luxury dealership, all-positions average compensation of \$101,737 was statistically equal to the non-luxury national average of \$101,552.
- The region's luxury dealership, all-positions average compensation of \$124,351 was three percent higher than the luxury national average of \$120,516.
